modern Interior
stories begin here

WPC & PVC Boards

Trend WPC and PVC boards are life long, environment-friendly, have an excellent performance. They are anti-UV, waterproof, anti-cracking and moth-proof. These high strength, low-cost boards have a low maintenance cost and usually last form 20 to 30 years.

Weiya Stone (Alabaster Sheet)

Trend Weiya stone Albaster sheet is manufactured from a mineral or rock to lend a soft and abstract form and finish. Often used as carving, as well as being processed for plaster powder, the Weiya stone sheets offer wide range of usage in interiors of homes and offices.

PVC Flex High Gloss Laminates

Trend PVC Flex Hi-Gloss Laminates bring in fashionable, appealing, elegant and durable solutions for home and office decor- an effectual way to obtain superior style and elegance in interior surface design.

PVC Fabric Premium Laminates

Trend PVC Fabric Premium Laminates have the texture, feel and impression to delight and inspire spaces. Flexible in application, the laminate slabs give a space makeover, perfect to enhance the interior with a wide, wide range.

High Definition Digital Laminates

Trend High definition, high-pressure digital laminates symbolise stylish living , eco-friendly and offer an extensive range of decorative laminates for homes, offices and a variety of spaces, lending grace and grandeur for breathtaking interiors.

Exterior Cladding

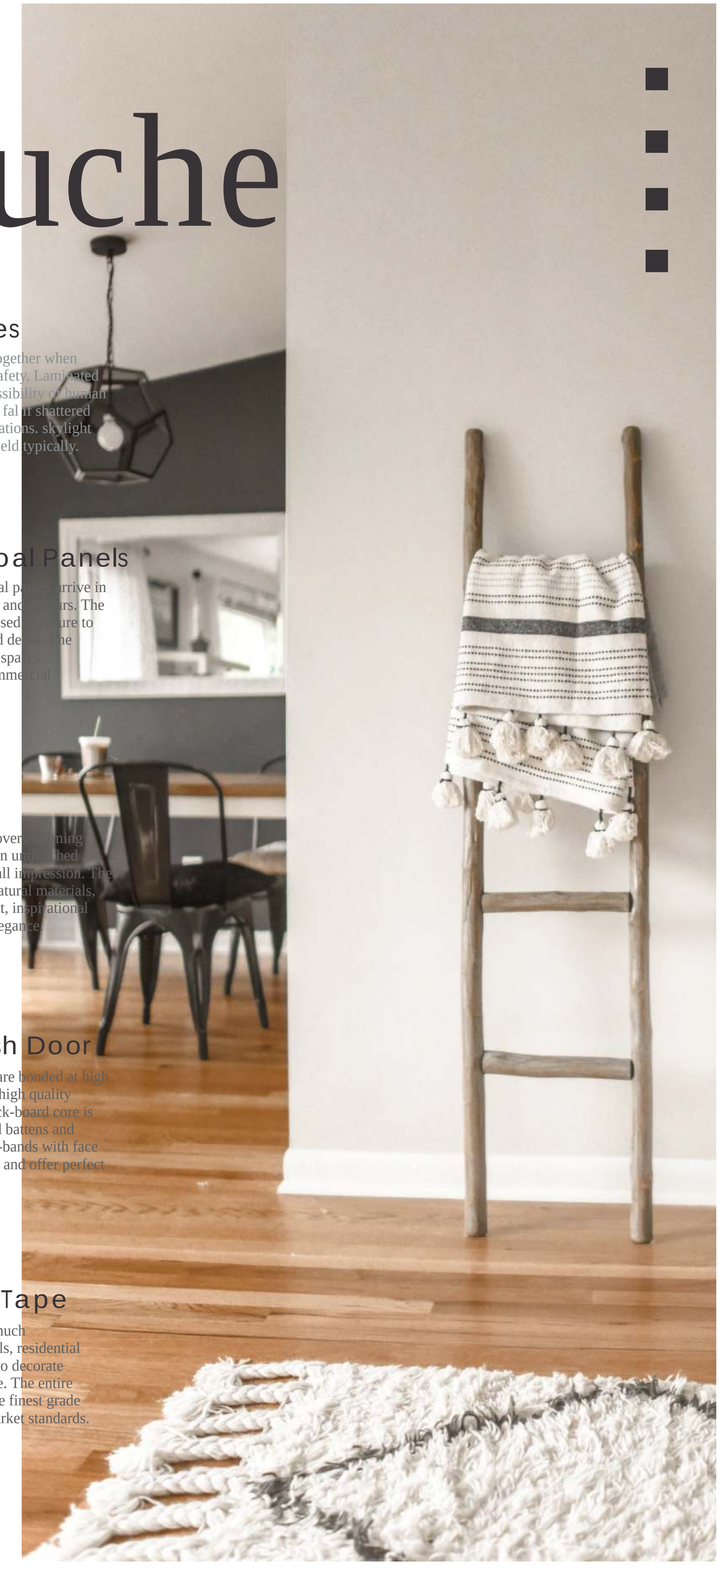
Trend cladding systems are not only aesthetically superior and unique in design, but are extremely energy efficient. They can be customised into any motifs that the architect wants for different requirements.

Arcylic Hi-gloss Laminates

In a league of it's own Acrylic Hi-Gloss panels enhance high definition design. The acrylic panels are smooth and soft to the touch as a feather and are resistant to fading, aberration and distortion. Anti-scratch and anti-corrosive.

adorn your style

Touche



Glass Laminates

Trend Glass Laminates grasp together when crushed/broken lending to the safety. Laminated glass is used when there is a possibility of human impact or where the glass could fall if shattered and also for architectural applications. skylight glazing and automobile windshield typically. utilise laminated glass.

Korean Charcoal Panels

Trend exclusive Korean Charcoal panels arrive in various textures, patterns, styles and colours. The layered material gives an embossed texture to the surface and adds volume and depth. The panels give character to interior spaces enhancing homes, offices or commercial properties.

3D PVC Panel

Trend 3D PVC Panels bring in overwhelming beauty. They give the interiors an unparalleled and exclusive designer white wall impression. The panels are created from 100% natural materials, help transform walls into elegant, inspirational spaces and are about inspired elegance.

Plywood & Flush Door

Trend Plywood & Flush Doors are bonded at high pressure and temperature, from high quality hardwood timber, while the block-board core is framed with seasoned hardwood battens and strengthened by a layer of cross-bands with face veneers. The doors are enduring and offer perfect finish.

Edge Banding Tape

Trend Edge Banding tapes are much sought-coveted in shopping malls, residential house and entertainment house to decorate and cover fine edges of furniture. The entire range is designed by utilising the finest grade materials in tune with global market standards.

Small Dia Ball Resistance	20N	22N	15N17.5N
Dimensional Stability MD (max)	0.5%	0.34%	0.7%0.5%
CD(max)	0.8%	0.7%	0.8%0.7%
Resistance to Dry Heat (180)	Slight Change	Slight Change	Slight Change
Resistance to Cigarette Burn	Moderate Change	Moderate Change	Moderate Change

Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. These may cause colour fading.

Extra care required in vertical pasting of laminates sheet as there is possiblity of bubbles due to lack of uniform pressure.

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, poor planning . Avoid all these to prevent cracking at corners.

Notes:

All tests may bot be valid for metallic Laminates.

Samples pasted. represent only colour, pattern and finish, not actual thickness. there may be slight variation in shades in batch to batch, particularly in metallic designs.

Bonding of laminate under high humidity, plywood with high moisture content. ply with uneven surface. interior quality adhesive and insufficient pressure may lead to delamination / air bubbles in between ply and laminate.

TREND warrants that its product are free form manufacturing defects and they are fit and suitable for usual purpose under normal proper use. The product must be inspected prior to installation and our liability will to be limited to the extent of the product only.
